

# INFLAMMATION IS NOT WHAT YOU THINK

"AS THE HEAD OF DERMATOLOGY AT RPA HOSPITAL, MY TEAM AND I SEE THOUSANDS OF PATIENTS EVERY YEAR WITH INFLAMMATORY SKIN DISEASES, SUCH AS PSORIASIS, ECZEMA AND GOLDEN STAPH."

"AS A RESEARCHER AT THE CENTENARY INSTITUTE, I CAN SEE THAT THE KEY ELEMENT DRIVING ALL OF THESE DISEASES IS INFLAMMATION. CONTROLLING INFLAMMATION MEANS DEFEATING DISEASE. THE FOUR HIGHEST GROSSING DRUGS IN THE WORLD ALL WORK TO TARGET AND CONTROL INFLAMMATION."

## PROFESSOR WOLFGANG WENINGER

Head of Dermatology - Royal Prince Alfred Hospital  
Head of the Immune Imaging Program - Centenary Institute
